

Music group

Thank you for the great honour it is to worship and lead our church in worship. This year the music group has been very active. Over the past 12 months we have been bringing in some new musicians and mentoring them.

I hope you have enjoyed seeing them grow just as we have. We also had an important day of training when Charlie Groves (who has lead worship in many churches but notably Holy Trinity Brompton) came and spent the day teaching in the morning and leading a practical workshop in the afternoon. It was fantastic getting the groups from the three churches together and was a very encouraging time.

We are looking to get the group together in a similar way more often. The other big development is the creation of "wired to worship". This was launched over Easter when Oli and Emily Nicholls led some workshops during Holy Week encouraging us to live lives of worship.

This was rounded off with a service on Easter Sunday evening. A 'Wired' service will be happening every couple of months and we are very excited about it.

Thank you for your encouragement and kind support over this year, we are looking forward to the next!

Mark Roberts.
